Immigration: *What is really going on ?*
What are the facts? What effect does it have on our
country and the people affected? How can it be fixed?

Sister Nancy is an expert in the area of Immigration. She has completed a doctorate in cultural anthropology and she is the General Counselor for the Sisters of Notre Dame de Namur. Her ministry as a nun living in Phoenix involves working with people from both sides of the issue in the Phoenix area. What is really going on and what does the law say? Come & find out. This will be good. Sister Nancy is awesome!
