All Are Invited!

***“How Do We Really Change
the World?”***

What are the ways decisions get made in our society? How does positive change actually happen? What can I do? When an injustice occurs, how can justice be restored? How did Drug Free, Crime Free Zones get established in Phoenix neighborhoods? How did the drug pseudoephedrine, used to make Methamphetamine, get pulled from Valley shelves? Monica Dorcy & Arturo Aguilar know the answers; they are Lead Organizers for Valley Interfaith Project. VIP is a broad-based, non-partisan, non-profit that works to make positive change in Arizona communities.

***“Wisdom comes, not from age, but from
education and learning”***
